

Our mission: To teach effective ways to restore, conserve and preserve nature in the urban environment, with a focus on gardening organically and sustainably.

TEXAS DISCOVERY GARDENS

Honor or remember a loved one and help us bring nature home.

Your gift allows us to introduce children who live in an urban environment to the natural wonders they can discover in their own backyards.

We're proud to have reached more than 10,000 DISD students in the 2009-2010 school year, and we look forward to creating an even bigger impact as we continue to develop our gardens -- our outdoor classroom -- into interactive, experiential educational gardens for both children and adults.

Enclosed is my donation to
TEXAS DISCOVERY GARDENS
in the amount of \$ _____

- In honor of _____
- In memory of _____
- In celebration of _____
